11.	Harry J. Adams	Milton E. Burr, 1st Caleb P. Buffum, 2nd Edgar H. Scofield, 3rd

## Report of the Mayor

*To the Citizens of Rutland:*

At the end of the year of the greatest unemployment we have ever experienced there is but little to add to the reports made by the heads of the different departments.

I would call attention to a few facts in connection with our expenses the past year.

In every department we have kept within the budget voted by the Board of Aldermen, except in the Charity Department, which the Board of Aldermen cut to a sum that was known to be inadequate. However, in order to comply with our Vermont laws we are not obliged to deprive our poor and needy because an inadequate appropriation was voted.

The amounts expended the past year for the City's needs were all carefully considered by the Board of Aldermen, and in every instance except charities, were voted and approved by them.

Your Mayor and the heads of the different departments had as their duties to perform—Giving to the City the best service that could be given by expending the appropriations voted by the Board of Aldermen.

A few items that may be of interest to anyone that realizes the City's situation.

Average number who had not private employment but were given employment on WPA projects over 500, at one time 576. This does not include Sewing project, Mattress project, nor the other different women's and professional projects.

The wages and salaries received by these workers exceed \$1,000. a day. Our merchants appreciate what the expenditure of such an amount means to their business, as such sums turn over several times between pay-days.

During my four years in office the City has paid bonds due amounting to \$321,000., and has issued for expenses contracted, (sidewalks and curbing) only \$25,000.

We did have to place a bond issue voted before I took office to pay expenses in 1934 of \$83,000. which we placed at less than 2¼%.

I have given all of my time to attending to the duties as Mayor. I have had the most earnest, hearty support of the heads of the different departments, and of the City employees to whom I extend my sincere thanks, and I wish to say that words fail me when I attempt to tell you of the faithful, devoted service of our late Overseer John D. Haugh gave to the City.

I wish to thank the Board of Aldermen for the aid given me during this most difficult year, despite slight differences of opinion, I feel we have accomplished much for Rutland.

Sincerely,

HENRY H. BRANCHAUD,  
*Mayor.*

## Report of City Treasurer

*To the Honorable City Council:*

Gentlemen:—I herewith present to you my report as City Treasurer for the fiscal year ending December 31, 1938.

## Report of Commissioner of Public Works

FOR THE YEAR 1938

*To the Honorable City Council:*

Gentlemen:

The activities of the Department of Public Works and the related projects of the Works Progress Administration for the year January 1st to December 31st, 1938 are shown in this report. Each division of the department closed the year with balances.

The financial statement, based on receipts of the City Treasurer and the expenditures including inter-department charges and credits is as follows:

Department	Receipts	Expenditures	Balance
Street.....	\$51,817 37	\$51,749 68	\$67 69
Sewer.....	6,323 07	6,083 68	239 39
Sidewalk.....	600 00	342 79	257 21
General.....	6,324 91	6,270 01	54 90
Water.....	†39,206 39	38,555 17	651 22
	\$104,271 74	\$103,001 33	\$1,270 41
WPA.....	23,863 25	23,842 81	20 44
WPA Walks and Curbs	*38,237 50	31,974 16	6,948 28

\*Assessments collected from property owners for their share of concrete walks and curbs was \$13,387.09.

†In the Water Department the figures shown above are based on budget limits. The City Treasurer carried forward a balance from 1937 of \$4,853.82 and during 1938 collected receipts of \$52,688.10, a total of \$57,541.92. The Water Department spent \$38,555.17, leaving a balance of \$18,986.75, of which \$16,000. was appropriated to the Pension Fund. This left an actual balance of \$2,986.75.

During 1938 the total footage of 5 foot concrete sidewalk built was 20,775 feet and of concrete curb was 27,004 feet, a total of 47,779 feet or 9.1 miles. The work done during 1936 and 1937 was 14½ miles in length making a total of 23.6 miles of WPA concrete construction.

During the past two years, the restoration of salary cuts has increased the labor costs. Additional items such as flood repair costs, the increase in winter sanding, the erection of street name signs, Clean Up Week and other small jobs have all been taken care of and yet the total cost of Public Works and Water has gradually been reduced. Some of this reduction, such as sewers and sidewalks, has been brought about by WPA operations while the rest of the reduction has been made possible by improving individual operations and bettering unit costs.

The comparison can best be shown graphically.

### DECREASE OF TOTAL PUBLIC WORKS AND WATER EXPENDITURES DURING 12 YEAR PERIOD

Average per year 1927 to 1931

\$185,307.93

Average per year 1932 to 1937

\$103 586.30

1938

\$103,001.33

It is interesting to note here that Burlington which has 10% more street mileage than Rutland and 43% greater population, spent \$156,594.79 for streets and sewers and \$106,253.29 for water during the last fiscal year. This is a total of \$262,848.08 or 154% greater than Rutland's expenses for the same departments.

### STREET DEPARTMENT

The pavement construction including the widening of the concrete road on Grove Street south of the Library Avenue intersection, on the east side of Church Street north of West Street and on Pine Street and the replacement of broken slabs on Pine Street and West Street. About 442 square yards of pavement was laid.

Sanding of icy roads during the winter has been a steadily increasing public service. The costs have increased as the people demanded more and more sand until now the work exceeds snow plowing and removal. The comparative increase is shown by this table.

### COST OF SANDING ICY ROADS AND WALKS

1930	\$824 74	1933	\$584 90	1936	\$1,254 98
1931	1,195 96	1934	1,480 53	1937	1,392 36
1932	766 89	1935	1,049 86	1938	3,248 62

During the icy season, 1,361 cubic yards of sand were used for this purpose. Calcium chloride was mixed with the sand to make it more effective.

Surface treatment with tar and asphalt was done on 133 streets. A continued attempt was made to improve the street surfaces by using 2,327 cubic yards of washed sand for cover material. Bituminous material was used on more streets than ever before. The total, converted to equivalent roadway, for comparison is shown as follows:

1934.....	27.37	miles of 18 foot road
1935.....	31.94	" " " " "
1936.....	33.94	" " " " "
1937.....	35.03	" " " " "
1938.....	37.63	" " " " "

During the five year period the amount of work accomplished has been increased 37%. While this increase in surface covered was being made the cost per square yard has been steadily decreased as the following table shows.

Year	Square Yards Covered	Number of Gallons Used	Cost Per Square Yard
1934.....	289,058	83,419	\$0.038
1935.....	337,031	82,978	.036
1936.....	358,496	89,287	.035
1937.....	370,285	91,110	.0347
1938.....	396,670	101,325	.0342

Calcium chloride was spread on gravel roads in the vicinity of houses to act as a dust layer and maintain the surface. The quantity used was 16,300 pounds, the cost was \$234.81.

The snowfall was greater than in 1937. There were three major storms. All the snow was removed from the business section and all other streets were kept plowed. The portion of streets referred to as the "business section" has increased during the last few years. The snow plowing equipment is now in the best condition that it ever has been. The tractor plow for sidewalks has been very successful and has replaced two horse drawn units. This work is done by the same tractor that draws the flusher in the summer. The cost of snow removal during 1938 was \$2,018.92. Repairs to plows cost \$274.44. These two items together with the sanding cost of \$3,248.62 already mentioned, make a total for this winter work of \$5,541.98. The cost of snow removal in Burlington during the last fiscal year was \$17,987.66 for 10% greater street mileage than Rutland's.

All bituminous surfaced streets were patched whenever surface holes developed. This item is much lower in cost than

formerly. During 1938 it was \$1,525.22 while five to ten years ago it averaged \$3,413 per year.

Gravel was spread on unsurfaced streets at times during the year when the schedule of other work permitted. The quantity used to improve the roads was 2,568 cubic yards and 406 cubic yards were used to fill holes during Spring thaws.

The streets in the business section were kept flushed and swept, while streets throughout the city were cleaned of leaves, mud and sand as much as funds would permit. The increased use of sand for icy roads creates a new cleaning problem. Practically all of the sand spread during the Winter must be swept up and removed when the ice has melted. This increased cleaning cost practically did not exist a few years ago. The flusher which was built by this department in 1936 at a cost of \$132.42 has been used three years and is still serviceable. A new factory-built machine would have cost about \$3,000.

Included in the Street Department is the cost of flood and tree repairs following the storm of last September. Damaged trees were removed, washed out portions of roads and walks were refilled, cellars in the section of the city near the river were pumped out, a portion of East Creek near Water Street was dredged, mud was cleaned up from flooded streets and lanterns and barricades were kept in place during the danger period. The cost of this work to the city was \$1,910.21 exclusive of truck hire which raised the total to \$2,387.55.

All Public Works equipment was maintained as economically as possible to render efficient service. The two Mack trucks should be replaced in 1939 by modern trucks. During 1938 our newest small truck proved this. Because of greater traveling speed we have found that a modern truck that cost \$880.00 delivers more gravel to the city in one day than one of the old Macks. In 1927 these two trucks cost \$9,280.00. At the time they were purchased, twelve years ago, the lighter, more efficient trucks were not available.

The old power shovel which had been in use ten years was traded for a new 3/8 cubic yard power shovel. This is used in the gravel pit and to load sand for bituminous cover as well as countless small jobs during the year.

On South Main Street at Mussey Brook the culvert was extended west to the street line to permit the future widening of the roadway. The same should be done on the east side to provide a safe sidewalk off the travelled pavement.

## SEWER DEPARTMENT

The work of this department consisted of maintenance of existing pipes and the construction and repair of manholes and catch basins for surface drainage.

The benefit to the City of WPA construction and improved sewer facilities are shown by the cost comparisons.

Average cost per year, 1927—1931.....	\$23,340 82
Average cost per year, 1932—1937.....	\$8,238 06
Cost during 1938.....	\$6,083 68

Prior to 1932, new sewer construction averaging \$12,340.82 is included in the above figure. Since 1933 the greater part of new work has been done by WPA while the sewer Department took care of maintenance, manholes and catch-basins, very short extensions for new house connections and miscellaneous repairs.

During 1938, 1 new manhole and 5 new catch-basins were built. All existing structures were repaired as needed.

The repair of the trunk sewer under the buildings on the west side of Merchants Row that was started in 1937 was completed. No trouble was experienced with this main during 1938, since the work was finished.

Twenty-two new building connections were installed and charged to the property owners at actual cost. The same procedure was followed for repairs to private pipes.

The removal of obstructions, cleaning and repairing of old sewer pipes and testing for plugs continued to be small. Exclusive of the Merchants Row trunk line the cost was \$1,835.25 during 1938. Five years ago this cost was \$3,147.90.

## GENERAL DEPARTMENT

The largest item of work and the most beneficial project in this department was the erection of 166 street name signs. In the business section 10 signs were placed on the ornamental light posts. Throughout the central part of the city and on all main routes 156 signs on steel posts were erected. Of these 56 were of the four-way type with the names of both intersecting streets and 100 were two-way signs which may easily be converted to four-way. These signs are guaranteed against defects for twenty years. The steel posts are easily repaired if struck and damaged by cars. About one-third of the city street corners were equipped with signs.

"Clean-up Week" was held from April 25th to 30th. There was not as much rubbish removed as in 1937 which was the

first year since 1931 that the service was rendered. The quantity of material moved to the dump was 438 cubic yards.

The dumping of rubbish at the Gleason Road dump was supervised by a full time caretaker. Main Street Park was kept in good condition throughout the season by a caretaker. Plants and shrubs were donated by public spirited citizens. This greatly improved the appearance of the park during the summer.

Bridges, culverts and guardrails were kept in repair.

The City Engineer's office was taken care of by this department. This included purchase of supplies and janitor service. Miscellaneous work was done for other City Hall departments.

## SIDEWALK DEPARTMENT

The construction of new concrete sidewalks, curbs and gutters was all WPA work and will be described in that report. During 1938, 9.1 miles of new construction was completed bringing the total for three years to 23.6 miles.

The Sidewalk Department spent only \$342.79 which included repairs to old walks and the addition of gravel to dirt walks.

## WATER DEPARTMENT

This department operated under the supervision of Edgar S. Beardsley who has completed twelve years of service.

The expenditures of this department have continually decreased throughout the last twelve years.

Average per year	
1927—1931.....	\$62,679 24
1932—1937.....	\$41,694 33
1938.....	\$38,555 17

There was less new main construction than in the past few years but more work than usual was necessary at the Water Head. The flood of September did a great amount of damage along Mendon Brook, destroyed the diversion dam at the intake leading to the reservoir and made necessary a large amount of labor to make the water supply serviceable for the winter months. During the summer the buildings occupied by the caretaker were repaired and painted.

The largest new main installation was on Stratton road where the 6 inch main was extended north from Moon Brook 1,395 feet toward Harrington Avenue. The continuation of this

will eliminate the dead ends on these two streets. One six inch valve was included.

The Wallace Avenue 6 inch main was extended 39 feet to provide water for a new house on Eastern Avenue.

A new 6 inch pipe was laid on Walnut Street for a distance of 84 feet west of Grove Street.

The West Street water pipe was extended 361 feet west to the west line of the City with  $\frac{3}{4}$  inch pipe to service the last house within the City limits.

On Belmont Avenue, North Street and Clematis Avenue the Water Department worked with WPA by installing the valves, making the main connections and putting in one hydrant. WPA laid 936 feet of 6 inch water main on these streets.

Sixty feet of 1 inch copper pipe was laid on Traverse Place. The Evergreen Avenue main was lowered to be below frost at the place where WPA cut down the roadway to eliminate the steep hill.

New hydrants not mentioned above were set near 152 Baxter Street and on the east end of North Street. There are now in service 305 City hydrants located on public streets and 20 private hydrants within the grounds of industrial plants, a total of 325 in service. Ten years ago there were 261 hydrants in use and twenty years ago there were only 187. This shows an increase of hydrants for fire protection of 74% in twenty years.

There were twenty-four new services installed which is the smallest number in several years. A new 6 inch sprinkler main for fire protection was laid to the Women's Reformatory. This was paid for at cost by the State of Vermont.

Because of failure of old pipes it was necessary to relay 96 house services, repair 20 and change over 13 from old to new mains. This total of 129 jobs was much higher than usual.

All main valves, service shut-offs, meters, valve boxes and blow-offs were repaired as needed. All tools and equipment, the department truck, shop and storage yard were maintained properly.

As already referred to, the buildings occupied by the Mendon Forest caretaker were repaired and painted. The Mendon Brook near the water intake was kept within a channel to convey the water to the reservoir. The flood of September necessitated a great amount of labor on this stream. The cost of this flood damage was \$1,181.52. The City Forest signs were repainted.

The old Gleason Reservoir, although out of service since 1932, was kept in condition so that it can be used if it is needed.

In the City Forest in Mendon the practice of setting out small evergreen trees was continued. During 1938, 5,000 White Pine, 20,000 Red Pine and 25,000 Norway Spruce were planted on cut-over land. This work was started in 1916 and has been kept up since. It is estimated that about 1,250,000 trees have been used, of which a very high percentage have survived and are maturing. This forest has been attracting nation-wide attention. In June Dr. Nelson Brown, of the United States Forest Service, visited our City Forest and later issued a bulletin on it, characterizing it as one of the most successful examples of Community Forest with some of the finest plantations in the country. Later comment in Reader's Digest has brought inquiries from as far away as Illinois.

The quantity of water used was slightly less than 1937 but greater than any previous year. The periods of heaviest usage were January and February when water is permitted to run to prevent house services from freezing and during August which was not as severe a dry spell as either of the previous two years.

The meter registration of water flowing through the supply mains is as follows:

	Average Gallons Per Day	Average Gallons per capita per day					
		1938	1937	1936	1935	1934	1933
January.....	3,354,000	194	189	177	199	178	171
February.....	3,203,000	185	193	191	207	230	174
March.....	3,250,000	188	196	185	193	216	171
April.....	3,076,000	178	191	175	187	173	151
May.....	3,060,000	177	161	170	153	164	150
June.....	3,045,000	176	170	180	159	165	157
July.....	3,093,000	179	188	176	166	176	160
August.....	3,206,000	185	188	190	166	166	148
September.....	3,045,000	176	192	158	159	162	149
October.....	2,881,000	167	175	149	149	150	142
November.....	2,873,000	166	164	165	146	149	150
December.....	3,170,000	183	176	197	164	171	170
Yearly Average.....	3,105,000	179	182	176	170	175	158

Based on population of 17,300.

There was no WPA wood cutting project during 1938 but the Charity Department supervised the cutting of cordwood by men receiving aid. This is included in the Charity Department report. In addition to this the City continued to sell wood on the stump to City residents who cut their own fuel. This group cut 147½ cords of wood for which they paid one dollar per cord.

The Water Department spent \$38,555.17 during the year of which \$26,951.34 or 70% was for labor and salaries.

## WORKS PROGRESS ADMINISTRATION

Projects worked by this federal agency employed more men than during previous years. At the beginning of 1938 there were 370 working. This quota was rapidly increased so that by April there were 490 men assigned, and the increase continued until 560 were assigned. By December the number working had been reduced to 510. The total payroll, exclusive of flood repair projects in Mt. Holly, Mendon and East Wallingford on which about 120 men from the city were employed during the last part of the year, was \$267,067.71 which is equivalent to an average number of 462 men working on WPA in the city throughout the year. This does not include "white collar" projects, sewing, mattress making, NYA or other federal relief expenditures.

The largest projects were concrete sidewalk and curb construction and the building of sewers.

Concrete sidewalks and curbs were built at 97 project locations, a total of 47,779 feet or 9.1 miles. This brings the total construction for three years to 23.6 miles. The City spent \$31,974.16 for materials, equipment, trucks, tools, etc. during 1938 and the federal government's share for labor was \$57,185.57.

The sewers laid during 1938 totaled 11,521 feet or 2.2 miles. A considerable amount of this was large pipe. There was 276 feet of 27 inch sewer, 1,130 feet of 24 inch, 647 feet of 18 inch, 2,864 feet of 15 inch, 2,214 feet of 12 inch, 2,458 feet of 10 inch and 1,932 feet of 8 inch sewer completed. The cost to the City was \$13,692.10.

The location and description of the sewer projects is as follows:

**Adams Street Sewer.** A new sewer was laid from a point 150 feet south of Tenney Brook bridge northerly to Field Avenue. 972 feet of 15 inch and 206 feet of 10 inch tile pipe was used.

**Allen Street Sewer.** Work was partially completed on an extension from Mahoney Avenue easterly. During 1938, 160 feet of 12 inch tile pipe was used.

**Avenue D Sewer.** An 8 inch sewer was laid for a distance of 156 feet.

**Belmont Avenue Sewer.** The sewer, between North and Jefferson Streets, was completed with 296 feet of 8 inch tile.

**Center Street Sewer.** An auxiliary line was laid from a point opposite the Rutland Savings Bank to Wales Street. A total of 476 feet of concrete pipe consisting of 80 feet of 24 inch, 368 feet of 18 inch and 28 feet of 15 inch was used.

**Cherry Street Sewer.** A tile sewer was laid from Forest Street to the trunk sewer at a point where it crosses Franklin Street. There was 279 feet of 18 inch, 224 feet of 15 inch and 90 feet of 8 inch tile used on the project.

**East Street Sewer.** A new sewer, consisting of 732 feet of 15 inch, 416 feet of 12 inch and 878 feet of 10 inch tile pipe, was laid from the junction of the trunk sewer crossing Spellman Terrace to East Street, thence southerly to Jackson Avenue.

**Eastern Avenue Sewer.** New 8 inch pipe was laid westerly from the trunk sewer, a distance of 446 feet.

**Freeman Avenue Sewer.** A 50 foot extension of the 8 inch sewer was laid.

**Gilrain Avenue Sewer.** An 8 inch sewer was laid from the Stratton Road easterly 304 feet.

**Jackson Avenue Sewer.** A 15 inch tile sewer was laid, for a distance of 282 feet, from East Street to a point where the trunk sewer crosses Jackson Avenue near Avenue C.

**Lincoln Avenue Sewer.** A further extension of 70 feet was constructed on the 12 inch line between Williams Street and Grant Avenue.

**Mahoney Avenue Sewer.** A new sewer, 396 feet of 10 inch tile, was laid southerly from Allen Street.

**Merchants Row Sewer.** A 27 inch concrete sewer was laid, from West Street southerly, a distance of 276 feet.

**Mussey Street Sewer.** Work was in progress at the end of 1938 on an extension to Curtis Avenue. A total of 628 feet of 10 inch was laid prior to January 1st.

**Pearl and North Street Sewers.** A 350 foot 10 inch tile sewer was laid on North Street between Adams and Pearl Streets. A 24 inch tile pipe was laid on Pearl Street from North Street to a point 150 feet north of Tenney Brook bridge, thence easterly through a City-owned right-of-way to Adams Street. A total of 1,050 feet of 24 inch tile pipe was used.

**Royce Street Sewer.** A 12 inch overflow sewer was laid, from the trunk sewer crossing Royce Street to Strongs Avenue, a distance of 260 feet.

**Stratton Road Sewer.** A 12 inch tile sewer was laid a distance of 670 feet southerly to the Paint Mine Brook crossing. An 8 inch line was laid a distance of 160 feet northerly. A 24 foot galvanized iron culvert was constructed at the Brook crossing to join the new sewer with the old line south of the brook and to eliminate the discharge into the brook at this point.

Stratton Road Sewer. A new sewer is under construction from Jackson to Killington Avenue. The pipe in place consists of 108 feet of 12 inch tile.

Strong's Avenue Sewer. A new sewer, consisting of 626 feet of 15 inch and 530 feet of 12 inch pipe, now carries the storm overflow from Royce Street southerly. The old trunk sewer, which crosses Royce, Hopkins and Clover Streets and is located at the rear of houses built on the east side of Strong's Avenue, caused frequent flooding of cellars and damage to gardens during Spring rains.

Thrall Avenue Sewer. A new sewer was completed on Thrall Avenue, Clark and Leonard Streets. An 8 inch tile sewer was laid a distance of 254 feet at a depth considered to be below the frost line.

Walnut Street Sewer. An 8 inch sewer was laid from Grove Street 176 feet westerly to accommodate a new house.

There were 17 street projects. Five of these were on previously unimproved streets, 11 consisted of widening, straightening and grading unsurfaced streets and the other project was the widening and paving of Library Avenue from Grove to Church Street.

A water main was laid on Belmont and North Streets. Street signs were erected at 166 street intersections, a retaining wall was built on North Main Street south of Crescent Street and labor was furnished to clean up and repair streets damaged by the flood last September.

Practically all of the WPA projects were improvements that under normal routine could not have been done by the City without federal aid for many years to come.

#### STREET DEPARTMENT

## CONCLUSION

The operation of Federal relief, in the form of WPA projects, was greater than during previous years and employed the largest number of men that have been working since the PWA trunk sewer projects were completed in 1935. The benefits have not only been directly to the men who were on the WPA payroll but also to the City in the form of improved public utilities such as sewers, water mains, sidewalks, curbs and back roads.

A comparatively small project, but a very great public improvement, was the erection of street signs. This should be continued until all street intersections have been completed, thereby eliminating a great handicap that has existed for a long time.

The amount of engineering, supervision and clerical work necessitated by the Federal relief program as well as the normal activities of City department work has been enormous and the cost has been kept at a minimum. The preparation of plans and specifications for proposed projects that have been voted on has all been done without any additional help.

One of the greatest problems has been to maintain the streets and plan the surface treatment work so that constant improvements can be made. The proof that improvement has been made is clearly shown by the fact that the surface area of streets treated with tar and asphalt has been increased 37% in five years while the unit cost of this work has been reduced about 9% in spite of the fact that better materials are being used than formerly. There are many streets that carry traffic too heavy for this type of surface and the final solution to provide high class roads will have to be in the building of some hard surfaced pavements in the future.

Our aim has been and will continue to be, to do the best work obtainable at the lowest possible cost and keep the expenditures within the financial limits set.

I wish to express my appreciation for assistance and cooperation to His Honor the Mayor and the Honorable Board of Aldermen, and to all City Officials and their departments for the help they have given. To the employees of this department I want to give the credit due them for their part in carrying out the work described in this report.

Respectfully submitted,

EDW. L. TRACY,  
*Commissioner of Public Works.*

## Report of the Commissioner of Public Safety

*To the Honorable City Council:*

Gentlemen:

It is my pleasure to submit to you my report as Commissioner of Public Safety from April 1st to Dec. 31st, 1938.

The Fire Department has had a busy year. While the fire loss has not been large, the number of calls answered are more than any year in the history of the department, 394. The apparatus, aside from some minor repairs, is in very good condition, and the records kept in this department are most complete. The addition of one more permanent man as voted by your Honorable Board, as well as the Chief's car, is much appreciated and a help. The addition to Station One quarters, since I was connected with this department, for sleeping room, reading and recreation rooms is one of the best things the City ever did, and is more than appreciated by the men.

The Police Officers have carried on the duties of their department, I feel, in a very creditable manner, when you consider the extra amount of work required each year in this department, and the number of men connected with it. There are calls for extra Officers all the time, for Band Concerts, baseball, Rutland Fair and many others. I would like to use the motorcycle more, but haven't the extra man to operate it. Saturday nights are the worst for traffic. I kept account of the cars one Saturday night that passed the intersection of Merchants Row and West St., July 15th from 7:15 to 8:15 P. M., 1,172 cars. The new stand installed at this intersection, with an Officer directing traffic, has worked out very good and helped the congestion at this point, as well as the No left turns here and the Clement Bank Corner on Saturday nights.

I am glad to report both these departments show a balance to the good for the year.

There was installed this past year, two new traffic lights, at the intersection of Pine and State Streets, Merchants Row and Wales Street, and are much appreciated.

The late Mr. Quigley who was in charge of these departments up to April 1st, recommended in his report last year, an addition to the east side of the Police Station to be used as a garage for the Police cars, with offices overhead, and I heartily agree with this. It is something very much needed and would not be very expensive and give men work.

Before completing the report I have one thing I wish to mention that does not seem just right to me. The Police Department checks and tags the cars for overtime parking, collects the fines, pays for printing the tags and the triplicate receipt books, keeps a record book, and all the money collected is turned over to Judge Webber, and from him to the general funds, and this department gets no money credit for it at all.

In closing I wish to thank His Honor the Mayor, the Honorable Board of Aldermen, the Chiefs and all the men connected with these departments for their fine cooperation since taking over this office.

Respectfully submitted,

JAMES C. DUNN,  
*Commissioner of Public Safety.*

The following is a report of the Expenses of the Fire and Police Departments as submitted to me by the Chief of each Department for the year ending December 31st, 1938.

#### FIRE DEPARTMENT

The Fire Department consists of one Chief Engineer, One Assistant Chief Engineer, two captains, fifteen firemen, and eight call men.

The apparatus consists of One American-LaFrance 75 foot aerial ladder truck, two American-LaFrance 750 gallon triple combination trucks and one Buffalo Quadruple truck with 750 gallon pump; also one International service truck.

The Department responded to 394 alarms during the year, as follows: Telephone 336, Bell 44, Verbal 9, and automatic thermostat 5. This is an increase of 68 alarms over 1937. The Department also responded to 20 special service calls.

The value of property endangered by fire was \$648,951.86. The amount of insurance carried was \$600,362.00, and the amount of insurance paid was \$36,241.12, making a total loss of \$36,241.12 at fires where the Department was called. There were losses of from \$1.00 to \$100.00 paid for damage by fire on 45 fires to which the Department was not called to, and the total damage at these fires was \$1,144.98, making the total loss by fires during 1938, \$37,386.10. The Department answered the most calls of any year in the history of the Department.

During the year two new boxes were installed, and one old box was replaced by a new one.

All fire alarm and police signal wires, on Wales Street were removed from poles and placed underground, when the street was dug up for the installation of the ornamental lights, thus saving the cost of excavating.

The cost of maintaining the Fire Department for 1938 was \$45,252.33, of which \$37,881.25 was for pay roll. \$7,371.08 was General expenses. The inventory value of the Fire Department is \$73,035.00, and an itemized statement of same is on file in the office of the City Treasurer.

#### POLICE DEPARTMENT

This department consists of a Chief of Police, a Sargeant and 12 Patrolmen, 2 retired Patrolmen and 55 Special Police Officers. Inventory shows the following apparatus and other Merchandise on hand at the end of the year:

Police signal system, telephone, lights and bells.....	\$1,200 00	
1—1938 New Ford V-8 Prowl car.....	798 00	
1 Indian Motorcycle.....	50 00

ALFRED H. KOLTONSKI,  
Chief Engineer.

## Report of City Attorney

*To the Honorable City Council:*

Gentlemen:

I hereby present to you my report as City Attorney for the year ending December 31st, 1938.

During the past year this City has been a party in several law suits of major importance. The following is a list of such cases, and the disposition made of each.

1. CITY OF RUTLAND VS. GEORGE CORO, ET AL.

Suit by the City to recover various amounts expended by the Overseer of the Poor in assisting Frank Coro during his lifetime. Judgment in favor of the City. The sum of \$211.80 was collected and turned over to the Treasurer.

2. KATHERINE AND ELLERY PURDY VS. CITY OF RURLAND.

Suit against the City to recover for injuries suffered by Mrs. Purdy when a culvert on Killington Avenue fell in as she was passing over it. These cases were settled out of court for \$4,750.00, and the City was released from all further liability.

3. CHARLES STANZIONE VS. CLAUDE BLONGY AND CITY OF RUTLAND.

Suit against the City in the United States District Court for injuries suffered by Mr. Stanzone when a truck, driven by a City employee, ran into him. This suit was subsequently discontinued as against this City, without cost to it.

4. RICHARD AND LOUISE SPAULDING VS. CITY OF RUTLAND.

Petition for a declaratory judgment. Both parties agreed to submit the question in this case, which concerned a tax exemption, to the decision of the court. The matter is still pending in the Supreme Court, and it is expected that a decision will be rendered in January.

5. CITY OF RUTLAND VS. MANNING MANUFACTURING COMPANY.

Suit to recover delinquent taxes and penalties in an amount of \$3,346.77. This action was settled without trial and the full amount of the delinquent taxes and penalties were turned over to the Tax Collector.

During the year there have been many other actions and proceedings of a minor nature, in which this City was involved.

All have been disposed of without any expense on the part of this City.

Ten insane paupers and one dipsomaniac were removed to the State Hospital in Waterbury for treatment. The Overseer and I also investigated a number of other cases of mental illness, and adequate provision was made in each case for care and treatment.

The last printed copies of the Charter and Ordinances were made in 1923. Since that time so many amendments, changes and additions have been enacted that these printed copies are now nearly valueless. During the past year, I have completed an up to date collection of all Charter and Ordinance provisions, in which all decisions of our Courts, all opinions of past and present City Attorneys, and any pertinent State laws, which explain or illustrate any sections of our Charter or Ordinances, are annotated. This will be typed and turned over to the City Clerk, either for printing or for the use of City officials, within the next few weeks.

Approximately three hundred and forty opinions on various legal and municipal questions have been requested by various officials, boards and committees of this City, and each request has been answered. In addition to the above, there have been almost daily consultations with various officials, boards and other persons concerning municipal affairs. It is a matter of considerable satisfaction to be able to report that the above work has been attended to as promptly as possible, and there are practically no pending requests for opinions or consultations at this time.

A considerable amount of time has been taken to adjust and settle various complaints and claims against the City. It is interesting to note that the great majority of such complaints and claims were able to be adjusted in a friendly manner, without troubling any other official or board. The variety of problems presented by such claims and complaints is almost unbelievable.

As in former years, the collection and settling of claims in favor of the City necessitates much attention. This is especially true of tax collections, and during the past year, many minor actions have been instituted, and claims filed in the State, Probate and Bankruptcy Courts. It is estimated that well over five thousand dollars in delinquent taxes has been collected through this office and turned over to the Tax Collector. In addition to the above, many claims, such as those against other towns for pauper assistance, and against individuals for bills and other sums, owed to the City, have been turned over and collected.

No salary or fees in this Department have been incurred beyond the amount designated by the City Council.

I wish to take this opportunity of acknowledging my sincere gratitude to the Mayor and the members of the Board of Aldermen, for the constant cooperation and assistance which I have, without exception, received from them.

Very truly yours,

VERNON J. LOVELAND.

## Report of the Overseer of the Poor

To the Honorable City Council:

I herewith submit my report as Overseer of the Poor for the year ending December 31, 1938.

On January 1, 1939, the office of Overseer of the Poor of this City became vacant by reason of the unfortunate death of John Haugh, who had filled this position for the past several years. On January 4, 1939 I was appointed Overseer of the Poor in his place.

Mr. Haugh had not commenced his annual report at the time of his death and hence the report is compiled only from his records and accounts. The official records of this Department appear to have been kept with considerable care and accuracy, but it would be difficult for me to summarize the actual accomplishments of this Department as completely as Mr. Haugh would have done. The statistics, however, indicate the very considerable amount of work of this Department during the period ending December 31st, 1938.

The amount of \$6,809.74 has been collected for hospitalization and the support of families chargeable to other towns, from individuals, board paid at the City Farm and produce sold.

Aid has been given to 481 families outside the City Farm. During the past year 364,520 pounds of government commodities, estimated value \$20,487.13, have been distributed, not only to families on direct relief, but also to border-line cases.

The WPA Sewing Projects are now organized to operate in an efficient and business like manner. The articles made include men's shirts, and overalls, women's dresses, slips, nightgowns, everything in the line of clothing for children—from infants' layettes to heavy woolen coats, also sheets for household use. This work of sewing was sponsored by the Honorable Mayor Branchaud and financed by the Charity Department. The project is carried on under the supervision of Miss Julia Douglas.

Another project was the cutting and drawing of 1,156 cords of 4 ft. wood. Of this amount 1,031 cords were delivered to needy families.

Under the efficient management of Mr. Lewis Gould at the City Farm 30 Inmates were cared for and 740 transients were accommodated. An inventory of livestock, farming implements, house furnishings amount to \$7,539.73.

In closing, it is only proper to acknowledge the considerable assistance and support this department received during the past year from Mayor Branchaud, the members of the Board of Aldermen, and other City Officials.

Respectfully submitted,

W. H. HANDLEY,

Overseer of Poor.

## Report of Old Age Assistance Investigator

### EXPENDITURES IN RUTLAND CITY FOR YEAR 1938

	No.	Assistance
January.....	210	\$3,433 00
February.....	217	3,545 00
March.....	215	3,525 50
April.....	215	3,415 50
May.....	211	3,400 50
June.....	206	3,340 50
July.....	202	3,270 50
August.....	201	3,258 00
September.....	203	3,290 50
October.....	198	3,230 50
November.....	196	3,200 00
December.....	197	3,235 50
Paid for funerals.....		\$40,245 50
		861 25
Total.....		\$41,106 75

During this period, 96 cents of every dollar available to the Old Age Assistance Department was paid in benefits to elderly persons and only 4 cents used for administration. The cost to the state for administration was 1.6 cents and 2.4 cents was paid by the Federal Government.

W. L. SEWARD,  
Old Age Assistance Investigator.

## Report of Pension Board

To the Honorable City Council:

Gentlemen:

For the first year of its operation the City of Rutland Pension Plan which became effective January 1, 1938 has resulted in a net cost to the city of \$18,446.82. This figure is explained as follows:

Total Premiums paid to Insurance Company..	\$24,221 65
Total Benefits paid to Pensioners.....	1,366 73
	\$25,588 38
Less total amount of employees contributions.	7,141 56
Net Cost.....	\$18,446 82

Since the start six employees have been retired on a minimum annual pension of \$400.00 each. During the year two of these, John Howard and Kate E. Lamb, have died, each after receiving only two monthly benefit payments.

At the present time there are 172 contributing members, 90 from the school department and 82 from the other departments of the city.

Four meetings of the Pension Board have been held for the granting of pensions, the issuance of permits to continue employment after the voluntary retirement age, and for the transaction of other business necessary to the successful operation of the Plan.

Although 8 employees are now eligible for retirement on the minimum pension of \$400.00, it is doubtful whether more than one of this number will be retired in 1939 as all the others, health permitting, have been granted permission to continue in the service of the city during the coming year.

Owing to the higher wage scale which became effective in all departments on March 1st of this year, the cost will be considerably more than in 1938. It is estimated, however, that this increase will not exceed \$2,000.00.

Our thanks is due to the various City Officials and the City Council for their cooperation and assistance during the past year as well as to Mr. P. H. Kent of this city for his assistance with the insurance details.

Respectfully submitted,

For the Committee,

ESME A. C. SMITH  
Chairman.

## Report of the District Nurse

*To The Honorable City Council:*

Gentlemen:

The Rutland Missionary Society sponsors the district nursing service of this city.

Its purpose is manifold: namely, the care of the sick and infirm, the welfare of the aged, and the care of children in homes of the less fortunate.

Emergency cases, throughout the year, have been taken care of through the generosity and benevolence of interested individuals who have contributed clothing and money.

With funds, thus received, medicine, cod liver oil, milk, eggs, fruit, food, etc. have been purchased for the needy.

Mittens have been knitted and given to me for distribution to many small children.

Through the cooperation of the City Charities Department, school children, the Salvation Army, and churches, Thanksgiving baskets were sent.

Gifts of dinners and clothing from friends and organizations were distributed at Christmas to thirty-six families.

One hundred and thirty-eight children were provided with underwear, snow-suits, shoes, overshoes, stockings, sweaters, dresses, candy, and toys. Doll carriages and broken toys which were reconditioned made many small hearts happy.

Layettes, made under the direction of the WPA Sewing Project of this city are given to me to place where needed.

Families visited.....	170
Calls made.....	2,354
Welfare calls.....	452
Prenatal.....	142
Paid patients.....	29
Maternity cases.....	24
Layettes distributed.....	31

The expense of the year has been as follows:

Salaries for nurses..... \$1,240 00

This was met by the City appropriation of \$300., and money received from paid patients which was \$295.35. The balance, \$644.65 was paid by the Rutland Missionary Society.

Due to the numerous conflicting drives that occur in the fall, each year, the annual drive for the District Nurse fund has been postponed until spring.

In conclusion, I wish to express my appreciation to all in the Charities Department for their splendid cooperation at all times.

Respectfully submitted,

OLIVE H. WESTIN,  
*District Nurse.*

## Report of Health Officer

To the Honorable City Council:

Gentlemen:

I herewith submit the following report for the year of 1938.  
Contagious diseases reported and quarantined:

Chickenpox	277
Mumps	177
Whooping Cough	143
Scarlet Fever	16
German Measles	7
Measles	5
Typhoid Fever	3
Total	628 Cases.

The City Water was found contaminated ten times during the year. Five of these contaminations occurred during the hurricane in September. Commissioner Tracy and the Department of Water Works deserve great credit for the service they performed to the community in handling the water supply during this flood.

Daily samples from the swimming pool were found to be contaminated only two times during the entire summer. Mr. Lanahan is to be congratulated on the efficient and sanitary way he conducts the swimming pool.

21 Plumbing inspections were made and approved.

29 Nuisance complaints were investigated.

278 School children received smallpox vaccinations in October under the supervision of the Department of Health and the school nurses Misses Hinchey and Crossman.

Respectfully submitted,

ALBERIC H. BELLEROSE, M.D.  
Health Officer.

## Report of Department of Public Health

Statistics for 1938 compiled from certificates filed in the City Clerk's office.

5018 children admissions @ 10c.....	501 80
200 towels @ .05c.....	10 00
12 family season tickets @\$6.00.....	72 00
148 children season tickets @\$2.00.....	296 00
26 children season tickets @\$1.00.....	26 00
13 special adult tickets @\$1.00.....	13 00
2 adult season tickets @ \$3.50.....	7 00
672 children admissions @ .05c.....	33 60
Concession.....	40 00
Appropriation to pool (for salaries and necessary expenses at beginning of season).....	200 00
	<hr/> \$1,250 40

### EXPENDITURES

Payrolls.....	\$820 66
Trucking service.....	14 00
Laundering.....	3 24
Sterilization (power and chemicals).....	49 12
Repairs to plant and apparatus at beginning of year (reconditioning of chlorinator, labor, etc.).....	240 35
Miscellaneous expenditures (soap, paint, tools, express, etc.).....	53 51
	<hr/> \$1,180 88
Total receipts.....	\$1,250 40
Total expenditures.....	<hr/> 1,180 88
Profit for season.....	\$69 52

Winter damage at the pool was cut to a minimum this year due to the policy of boarding up the pool, as suggested by Mayor Branchaud.

Swimming meets were again held with Sunrise, Proctor, and Lake Dunmore and our swimmers performed creditably.

Learn to Swim campaign was held during the first two weeks in August under the supervision of Lifeguard Howard Morse and in connection with the Red Cross.

The patronage as a whole showed a decrease from the previous year, due perhaps to the Baseball interest in the city and to other causes. However, the pool met its expenses and shows a balance for the year.

I wish to express my sincere thanks and appreciation to Hon. Mayor and the Board of Aldermen for their helpful cooperation and express my appreciation to the Health Officer, the City Engineer, the Chief of the Fire Department, the Supt. of the Water Dept., and their departments for their generous help throughout the season. I also wish to acknowledge the kindness of the Fair Association for lending park benches for use at the pool.

Respectfully submitted,

FREDERICK LANAHAN.

## Report of Supervisor of Recreation Projects

*To the Honorable Board of Aldermen:*

Gentlemen:

I hereby submit a report covering recreation in the City of Rutland for the year ending December 31st, 1938.

Appropriation of City Council..... \$590 25

### EXPENDITURES

Supplies.....	\$217 83
Rent.....	195 00
Equipment.....	129 11
Light.....	28 68
Trucking.....	19 63

Total Expenditures..... \$590 25

This is the third year in which the City of Rutland and the National Youth Administration have cooperated in a program of organized recreation. During the past year the National Youth Administration has paid for the services of four full time and ten part time workers. This amounted to a contribution of \$5,301.60.

During the past summer 550 Rutland children weekly enjoyed the benefits of supervised play on the five playgrounds. This is a weekly average and while accurate statistics are not available it is safe to presume that over twice this number or approximately 1,500 different children attended playground activities during some part of the summer. The Community Center on West Street attracted the attention of 400 young people weekly. At least 850 young people have taken advantage of its facilities since its opening. The approximate total attendance for recreation in the City of Rutland for the year 1938 was 55,000.

The National Youth Administration and the Rutland Recreation Supervisors appreciate the full cooperation of His Honor the Mayor, the Honorable Board of Aldermen, and the other city officials for their interest in this project.

Sincerely yours,

M. JACQUELINE THOMPSON,  
*Recreation Supervisor.*

## Report of Inspector of Buildings

To the Honorable City Council:

Gentlemen:

I herewith submit the following report for the year ending December 31, 1938.

New houses.....	20
House alterations and additions.....	9

## Report of the Board of School Commissioners

*To the Mayor, City Council and Citizens of the City of Rutland:*

Your School Board is firmly convinced that their most important duty is to arrange affairs so that good teachers can be secured for the children of Rutland. We believe that we now have an exceptionally competent corps of teachers who should be well paid as a matter of sound social policy and to decrease financial worry which prevents a good teacher from doing good work. We wish to thank the voters for the favorable vote on the additional tax of fifteen cents last March for restoration of salaries which we regard as a vote of confidence in the schools and teachers of Rutland.

The Retirement Plan for city employees which was made effective January 1, 1938 has already had and will continue to have in a greater degree, a beneficial effect on our teachers. The committee, headed by Mr. Esme A. C. Smith, which drafted the plan for the City provided, in a generous measure, for past service as well as a financially sound and economically possible future service scheme. Our teachers, for the most part dependent on their own earnings for the present and future, feel a sense of security which has been denied them up to date. This is important because the teacher can devote herself fully to the business of understanding children and teaching them without undue worry about the future. The Board of School Commissioners has a strong conviction that Rutland has done very well by her teachers and that we have every assurance that our teachers will do even better by our children.

When our school nurse Mary A. Devlin and our truant officer Charles B. Costello passed away about two years ago we began to think about the advantage which might result if the two services were combined. After considering the matter for some time we came to the conclusion that two nurses who would serve both as truant officer and nurse would best meet the needs of our schools. Very often absence from school involves sickness of the child or some member of the family so a visit by the nurse covers both the absence and the illness. In general, children prefer to be in school so that truancy is no longer a matter of great importance. The experience of the last two years leads us to believe that combining these two offices and employing two nurses who look after such truancy as still exists is a great advantage to the City.

Rutland, in common with other cities of the United States, has reached the stage in its history when there is a declining

birth rate which has resulted in a smaller attendance in the elementary schools. The decline has not reached the high school level as yet but it will in a few years. Our elementary school registration has decreased about 300 since the high point, reached around 1930, making it possible to reduce the number of elementary teachers employed and to close the Madison School entirely. The teachers and pupils of the Madison district were transferred to other buildings with no great hardship to either. The ultimate savings in teachers salaries, janitor service, fuel and repairs will amount to five or six thousand dollars a year. We were influenced by the fact that the Madison Street building is constructed of wood and is, therefore, a greater fire hazard than other buildings. We have been appraised of the fact that a second exit would be necessary, for the protection of the children, which would cost the city several thousand dollars. For some time we have been faced with the necessity of replacing the plumbing equipment, improving the basement, and making expensive repairs to the chimneys. While we regret the closing of a building which has been in use for fifty-five years and which was a valuable influence in the neighborhood, we feel that the circumstance made the closing inevitable.

The growing interest in and understanding of the importance of recreation in our community is a matter of great satisfaction to the School Board. We have had a definite and an effective program of recreation in the schools for about ten years which partially accounts for the widespread interest at the present time. While we have some land for recreational purposes near the various schools, in most cases it is inadequate. This fall we have a chance to add a little less than an acre to the Watkins Avenue School playground at a reasonable cost. We believe that a long range plan should be devised, the purpose of which would be to acquire land to enlarge school grounds before the price becomes prohibitive.

Safety education has become one of the most important functions of the school program. Private organizations have been doing much over a period of years but the schools should assume more responsibility. In our estimation the school patrol is one of the best means of developing in children right responses to danger of any activity that has come to our attention. The patrols in operation at Christ the King, Lincoln, Longfellow, and St. Peters Schools are developing qualities of leadership, initiative, and self reliance in addition to the safety part of the program which are hard to duplicate. We desire to express our appreciation to the Motor Vehicle Department and the State Police as well as to the Rutland Police Department and the principals of the schools mentioned for their splendid cooperation in this enterprise. We feel that the educational and social values accruing from a school patrol are so numerous and so valuable that

we urge the principal of each of the other schools in the city to organize such a patrol in his school.

At the regular monthly meeting of the Board last December, the need for additional exits at Kingsley and Longfellow Schools was brought up as a result of a report by Fire Marshal Alfred Koltonski to the Board of Aldermen. Following this report a plan was made to provide a second exit at the Kingsley School with a fire proof stair well to the third floor at an estimated cost of about \$4,200. About the time the Board was ready to act, the fire at the Kingsley School occurred. After the fire, it seemed more feasible to rearrange the coat rooms, lavatories and storage closets, which occupied the center of the building, in such a way that a fire proof stair well would be included inside the present building. This is the plan adopted by the Board at an estimated cost of \$4,200 including other repairs made necessary by the fire.

A plan for an additional exit with fire proof stairs inside the Longfellow building is being made and will undoubtedly be acted upon by the Board sometime in February 1939. We wish to assure the parents of the school children of Rutland that every effort will be made to safeguard the health and lives of the children.

The latter part of the summer Miss Kate E. Lamb, a teacher in our schools for over forty years, passed away. In expressing our appreciation of the valuable service of Miss Lamb to the children of our city, we would like to feel that we are paying tribute to all our teachers and especially to those who have given many years of service.

The Board of School Commissioners has enjoyed a high degree of cooperation from other departments of the city, from the teachers, and from parents. We appreciate the good will shown and evidences of confidence on many occasions. The Board will continue to direct the operation of the schools for the benefit of our children and with due consideration for the cost.

Respectfully submitted,

BOARD OF SCHOOL COMMISSIONERS,

By F. E. QUIGLEY, *President Pro Tem.*

Rutland, Vermont, February 6, 1939.

## Report of the Superintendent of Schools

*To the Board of School Commissioners, the Mayor, the Board of Aldermen and the Citizens of the City of Rutland:*

I have the honor of submitting to you the forty-sixth annual report of the Rutland Public Schools and the eighteenth under the present administration.

"For what does it profit them, (the children) to spend their days in these things which neither at home, nor in the army, nor in business, nor in the cloister, nor in political affairs, nor in the church, nor anywhere else are any good to anyone—except only in the schools." This sounds like a modern criticism of the curriculum of a high school but it was written three hundred years before Columbus discovered America.

In 1859 Herbert Spencer pointed out that nothing could be found anywhere in the English secondary schools even remotely related to life. Young people knew a good deal about the ancient world but very little about the world in which they lived and in which they would soon be trying to make a living.

The school program of studies has always lagged behind the society of which it was a part. Among the numerous reasons for the lag are: the faith of people in tradition; the worship of the ways of our grandfathers, the inertia of human beings; vested interests; and lack of teachers informed on social change and competent to present subject matter in harmony with those changes. Parents are inclined to think that the subjects in which they excelled are the subjects that ought to be taught. For those parents who never attended high school there is a certain awe concerning the traditional subjects causing a demand for a course which may not fit the needs of the child involved in the slightest degree. College preparation has played a part all out of proportion to its importance. Less than twenty five per cent of the graduates of the high schools of the country go to college and fifty per cent of those who do go ought not to be there at all. The vital interests of the majority of youth ought to determine the courses offered in a high school.

From the time organized education began the door has been shut against any new subject or idea. Strange as it may now seem Greek and Latin were intruders and fads in the middle ages. Mathematics and science had a heroic struggle over many years to get recognition as worthy subjects of study. And so it went, history was a fad, music merely the garnish of life, and health an unimportant matter. But all these subjects and many others after being called fads and frills have found a place as a subject

of study in the high schools of America. All this seems to suggest that it is not impossible to change the present high school studies so that they will be better adapted to the needs of youth.

The educator looking at the results of education as manifest in social, economic and political life says that we should have a "Dynamic and life centered curriculum." The citizen concerned about the welfare of his children and his community says that the result of education should be that people are better able to live here and now in Vermont. Both are talking about the same thing but no one seems to know just what to do about the matter.

The criticisms directed against the present curriculum are many and varied. I will mention and briefly discuss a few that seem important. The curriculum is said to be remote from the child's life. It is too much concerned with text books, class rooms, and has little connection with the life of the community. To a large degree this is true but schools like Rutland High School offer many activities that are considered vital by the youth of the city. The spirit of the school and the teacher is, moreover, in harmony with the needs and purposes of our youth.

The claim is made that the pattern for our high school courses is based on the needs of a simpler, agrarian, and a pioneer society. The fact that we have become an urbanized and mechanized society is largely overlooked by the schools. In short, the school has failed to adjust itself to modern society. There is much truth in these assertions. The lure of advertising, the complications of modern economic life, and the absence of any religious training in the homes of many pupils are not given sufficient consideration by the schools. Many of the right reactions to modern conditions cannot be taught or anticipated in the schools but must be a part of society's program of adult education.

Those who look deeper are asserting that too little attention is given to individual differences, to the development of personality and to the emotional life of young people. While much thought and study has been put on this side of school life, it undoubtedly is true that school success in terms of ground covered, credits earned, and subjects passed, are the prevailing goals rather than character, personality and citizenship.

The changes that need to be made in the subject matter offered in the American high schools would be revolutionary if made in a short period of time. But steps should be taken at once to start the laborious undertaking. At this point it will be well to consider, in general, some of the things that ought to be done and from the point of view of a parent who is personally responsible for the education of his own children. What are the essentials in American life today.

1. The ability and the desire to live in harmony with other people which will tend to insure continuous employment

and happy relationships in the family, the neighborhood, the city, and the state.

2. An abiding faith in democracy, not only as a system of government, but as a way of life which shall result in active and intelligent participation in the affairs of the community and the nation.
3. A conviction that each person is responsible for the success or failure of his own life. Heredity and environment are important but not deciding factors in life. Youth must decide to do something for the state and not wait for the state to do something for him.
4. A spiritual life which enriches, invigorates and expands the life of man.
5. An understanding of the economic life of the locality, the nation, and the world. The frontier is gone, our natural resources have been exploited and the markets of the world are no longer promising so a new set of economic demands is upon us.
6. A respect for the laws of the land and a determination to obey them and to see that others obey them. In short, the reduction of crime to reasonable proportions.
7. A better understanding of the importance of health, recreation and accident prevention.
8. A widespread interest in hobbies, crafts, nature and arts to the end that leisure time may become a means for acquiring poise, spiritual growth and understanding.

To put into effect the program indicated, with the improvements that become evident as progress is made toward a more satisfactory program of education, will require the best intelligence our community affords, energized by a strong determination to think the problem through, to discard tradition if it stands in the way of human welfare, and to make education in a democracy and for democratic ends as effective as under any other form of government. I challenge every person in Rutland who has an idea to produce it, to discuss it, to persuade others to adopt it or to discard it if sufficient evidence is not found for its support.

Respectfully submitted,

W. W. FAIRCHILD,

*Superintendent of Schools.*

Rutland, Vermont, February 3, 1939.

# Statistical Report of the Rutland Public Schools

RUTLAND PUBLIC SCHOOLS  
FINANCIAL STATEMENT FOR THE YEAR ENDING  
DECEMBER 31, 1938

## RECEIPTS

Balance January 1, 1938, deferred payments on teachers' salaries	\$5,514 33
City appropriation at \$1.30 on Grand List	171,820 68
State support	3,338 27
State aid vocational courses	200 00
Tuition	7,633 21
Text books sold	1,507 57

PUPILS PROMOTED FROM EIGHTH GRADE TO HIGH SCHOOL  
JUNE 1938

Patrick Abatiell	Alfonso Flory
Joan Adams	John Fox
Robert Alcott	Allan Foy
Gerald Alexander	Genevieve Frappier
Helen Babbitt	Richard Fuller
Dean Baird	Louis Fusco
Antoinette Barone	David Gale
Fernand Bartlett	Julian Gelvan
Constance Beaudette	Mary Geno
Edna Beauchamp	Fern Goodyear
Gertrude Black	John Gregory
Charles Bruce	Alice Gutzwiller
Barbara Bump	Donald Hackel
Franklyn Bump	Thelma Hadley
Gordon Burke	Howard Hall
Fred Burney	Margaret Hall
Alan Burr	Hubert Hamel
Chester Burton	Marshall Hamel
Helena Burton	Catherine Hance
Alison Cady	Carol Havens
Earl Cameron	Samuel Hayward
Alice Canty	Beverly Hesse
Marilyn Carleton	James Hesse
James Carroll	Julia Hesse
Barbara Chase	Barbara Hinckley
Phyllis Clark	John Hoag
Gerald Coltey	June Haseltine
Betty Connell	Robert Hughes
Howard Corey	Hiram Huntoon
Kenneth Cota	Eugenia Howland
Nathalie Crosby	Natalie Hyland
Martha Curtis	Barbara Ingalls
Harold Danforth	Samuel Intelisano
William Dansro	Richard Jasmin
Theodore Davis	Arnold Johnson
Yvonne Davis	Howard Johnson
Edna Densmore	Lorraine Johnson
Robert Densmore	Joseph Jones
Howard Derby	Richard Jones
Sara Dorsey	Bernard Kazon
Jane Dulska	James Kellogg
Edward Dumouchel	Richard Kepple
Barbara Dupuis	Florence King
Shirley Dupuis	Sibyl Kirby
Mary Ellen Earle	Shirley Knights
Irene Elkey	John LaFay
George Ellwood	Cecelia LaPlante
Raymond Emrick	Harriett Lash
Phyllis Emmons	Francis Lassar
Louise Ezzo	Yolanda Lanzillo
Shirley Fairbanks	Mary Lee
Natalie Feather	Marjorie L'Esperance
Florence Fenstermaker	Antoinette Louras
Grace Ferrell	Peter Louras
Jeanne Fish	Alfred Mainolfi
Helen Flanders	Raymond Mainville
Mary Flanders	Bernard Mangan

Marilyn Marceau	Marjorie Rivers
Barbara Martel	Robert Rondeau
Thompson Martin	Louis Roucoulette
Leo Mayer	Shirley Roucoulette
Constance McFarren	Wayne Rowell
Bernice McKirryher	Theresa Ryan
Beth McKenzie	Shirley Sanderson
Doris McNamara	Eileen Santwire
Edward Melen	Beverly Savage
Gerald Moore	Walter Seniecle
Jerome Muhlberg	Shirley Shangraw
Francis Murray	George Skottet
Renato Musetti	Mildred Skuba
Barry Mylott	Constance Smatresk
Raymond Mylott	Beatrice Smith
Florence New	Martha Smith
Lorraine Newell	Mildred Solomka
Warren Newton	Geraldine Soulia
Mary Jean Ogden	Ethel Spahn
Douglas O'Kelley	Earl Spencer
Donald Papineau	Joseph Stanley
Olena Paquette	Claire Stewart
Shirley Parker	Elaine Stratton
Barbara Perkins	Shirley Taft
Constance Perkins	Edward Trombley
Janet Perkins	Alvah Underwood
Ralph Perkins	Carl Walker
Ruth Perry	Madalene Walker
Constance Phillips	George Walsh
Patricia Phillips	Nita Ward
Jermain Porter	Fay Waterman
Mario Pratico	Clovis Webster
Myles Pratico	Sadie Wemette
Barbara Purdy	Max Welch
Kenneth Ravidou	Jack Whelden
Harry Reed	Lloyd Whitcomb
Clarence Reynolds	Jane Williams
Irene Richards	Thelma Wolinsky
Margaret Richardson	Shirley Woodbury
Barbara Rielle	William Wright

## IN MEMORIAM

KATE E. LAMB

It seemed strange, and yet especially fitting, that a person who, for more than fifty years, had awaited with joy each year the coming of boys and girls for her guidance, should herself answer the summons of the Great Teacher on the opening day of a school year.

Kate E. Lamb died September 7, 1938, after having completed forty-five years of faithful, efficient service in the Rutland schools, forty-one years of which were spent as Principal of the Watkins Avenue School.

Born in Rutland on October 3, 1865, and educated in the Parochial schools, she began teaching in a rural school in Poultney when very young. While teaching she continued her study courses and became a graduate of Mount St. Joseph's Academy. She also taught in West Rutland and Center Rutland before coming to the schools of the city.

Teaching was truly her "life work," and to that work she gave the best of every faculty she possessed, not content with guiding the children while they were with her, but maintaining a lively interest in their later progress and achievements.

She was a constant student of trends in educational affairs, showing her professional spirit by membership in the professional organizations of the National Education Association, the Vermont State Teachers' Association, the Vermont Women Teachers' Club, and the Rutland Teachers' Association. She never sought office, but was a consistent, informed member, supporting forward-looking policies of those organizations. She also took an active part in the work of the Parent Teacher Association, and was keenly interested in city, state and national affairs.

It is not given us to know the extent of her influence upon the hundreds of boys and girls who had the privilege of her guidance, but she has bequeathed to all an example of sincerity of purpose and unselfish devotion to duty, which will be both a pleasant memory and a constant inspiration.

May her soul rest in peace, and may light perpetual shine upon her.

## Report of Auditors

Jan. 11, 1939.

*To the Honorable City Council:*

Your auditors have audited the books of the City Treasurer, City Clerk, Overseer of the Poor, Superintendent of Schools, City Constable and Sinking Fund Commissioners, from January 1, 1938 to December 31, 1938, inclusive, and we hereby certify that IN OUR OPINION, they have duly accounted for all monies received by them.

We find the records of disbursements as shown by the City Clerk and Superintendent of Schools in agreement with the entries on the books of the City Treasurer. We have checked the cash and verified the bonds, deposit books and securities in the hands of the City Treasurer and Sinking Fund Commissioners and found them to be correct.

The books of the City Treasurer are in their usual excellent condition and very clearly show the city's true financial condition on December 31, 1938, and the result of operations for the twelve months period then ended.

Respectfully submitted,

GEO. A. SABIN,  
JOHN W. BURKE,  
ARTHUR E. CROWLEY,  
Auditors.
